

Adithya Kahawanugoda

Melbourne, Victoria | adithyakahawanugoda@gmail.com | +61 452525849 | [LinkedIn](#) | 4+ Years of Experience

Education

RMIT University

Master of Information Technology
Specializing in Software Architecture

Melbourne, Victoria
March 2024 - December 2025

Sri Lanka Institute of Information Technology

Bachelor's in Information Technology (Honours)
Specializing in Software Engineering
Second Class Honors Upper Division

Colombo, Sri Lanka
December 2018 - January 2023

Thesis: [Development of Low Resource Machine Learning Models for Child Cognitive Ability Assessments] presented at ICAC 2023 & published on IEEE Xplore DOI: [Link](#)

Experience

Rooster Technology (Pvt) Ltd. Software Engineer

Colombo, Sri Lanka
March 2023 – April 2026

- Developed and maintained end-to-end HRIS and ATS platform features from system design through implementation
- Built and integrated scalable APIs using GraphQL, REST, and microservice architectures
- Managed code integrity, version control, technical documentation, and development workflows across projects
- Configured and maintained AWS infrastructure resources and development environments for deployment and testing
- Implemented JavaScript-based full-stack solutions using both SQL and NoSQL databases
- Streamlined hiring workflow functionality by automating repetitive processes and improving platform usability
- Collaborated across development lifecycle stages to deliver reliable and maintainable software solutions
- Optimized backend services and database interactions to support scalable talent management operations

Surge Global Pvt Ltd. Intern Software Engineer

Colombo, Sri Lanka
September 2022 – March 2023

- Gained hands-on experience across the full software development lifecycle and DevOps practices during internship period
- Participated in requirement gathering sessions and architecture discussions with development and business teams
- Assisted in setting up development environments and supporting DevOps workflows and deployment processes
- Provisioned cloud infrastructure resources across AWS, Azure, and GCP using Terraform
- Supported database migration activities within AWS environments
- Collaborated with cross-functional teams to deliver scalable and maintainable infrastructure solutions

Rootcode Pvt Ltd. Intern Software Engineer

Colombo, Sri Lanka
June 2021 – March 2022

- Contributed to multiple concurrent projects during internship, gaining exposure to diverse frontend and backend technologies
- Developed frontend applications using ReactJS, Redux, and NextJS

- Built and maintained backend services using NodeJS and NestJS
- Managed MySQL databases using TypeScript-based object-relational mappers (ORMs)
- Integrated third-party and cloud services including AWS S3, GCP OAuth, Firebase Push Notifications, Stripe, and Twilio
- Prepared and maintained technical reference documents, system workflows, and flow diagrams for development activities
- Collaborated across development teams to support feature implementation and system integration using JavaScript-based technology stacks

Skills and Proficient Technologies

Technical:

- Programming Languages: C, C++, Java, JavaScript, TypeScript, Dart, PHP, Python, Bash - Advanced proficiency
- Web Development Stacks: MERN Stack - Advanced proficiency
- Frontend Frameworks: ReactJS, NextJS, Redux - Advanced proficiency
- Backend Frameworks: NodeJS, NestJS, ExpressJS - Advanced proficiency
- Mobile Development: Flutter, iOS Development (Swift, Xcode) - Intermediate proficiency
- API Architectures: REST, GraphQL - Advanced proficiency
- Databases: MySQL, MongoDB, Elasticsearch - Advanced proficiency
- Cloud Technologies: AWS, GCP, Azure, Terraform (Infrastructure as Code) - Intermediate to Advanced proficiency
- CI/CD & DevOps Tools: GitHub Actions, Bitbucket Pipelines, Docker, Kubernetes - Intermediate proficiency
- Version Control Systems: GitHub, GitLab, Bitbucket - Advanced proficiency
- Linux - Intermediate proficiency
- UI/UX Design Tools: Figma - Intermediate proficiency
- Project Management Tools: JIRA, Azure Boards - Intermediate proficiency
- Strong understanding of algorithms, data structures, debugging, troubleshooting

Language: English - Proficient (PTE Academic Score: 75/90)

Projects

- Expert Republic -
 - A platform connecting experts with clients through 1-to-1 video calls
 - Technologies: React, Redux, Twilio API, GCP
- Rooster HRIS & ATS Platforms -
 - Streamlined hiring and talent management
 - Microservice architecture based on AWS infrastructure
 - Worked on full-stack feature development, API integrations, and scalable system architecture
 - Technologies: ReactJS, NextJS, NodeJS, NestJS, GraphQL, REST API, AWS, MySQL, MongoDB, Elastic Search

Certifications

- AWS Certified Solutions Architect - Associate (SAA-C03) - *pending*
- Linux Kernel Development (LFD103) - Linux Foundation

Interests

- Anime, manga, and digital storytelling
- Deep diving into random topics across the internet and YouTube, from emerging tech trends to niche curiosities
- Exploring cloud infrastructure, DevOps workflows, and automation tools beyond project requirements
- Keeping up with AI advancements, scalable systems, and emerging software trends
- Learning cloud infrastructure and automation technologies
